

LOOK OUT FOR CHILDREN, PEOPLE BICYCLING

Bicycling is a healthy, fun way for people of all ages to get around North Texas.

When driving, always look out for people bicycling and allow for three or more feet when passing them. Remember, these people are family members, friends, neighbors and fellow North Texans.

Driving the speed limit increases safety for all, and following the speed limit where children may be playing is especially important.

Visit LookOutTexans.org for more tips to bicycle, walk and drive safely.
